

## Wireless presentation system to increase productivity

As an enterprise-level wireless presentation system, Yealink RoomCast allows participants to cast their screens to a TV simultaneously through Yealink Wireless Presentation Pod and use interactive collaboration features. This can facilitate local collaboration in traditional meeting rooms and increase productivity. Furthermore, except for its compact design and built-in 802.11ac 2x2 MIMO Wi-Fi, it can support STA/AP/P2P Wi-Fi mode at the same time and provides PoE or DC power supply for you to choose. All combine to make Yealink RoomCast the ideal wireless presentation solution in small and medium-sized meeting rooms or multimedia classrooms.

Yealink Wireless Presentation Pod

4-Screen Casting

Extended Display Casting

Annotation

Virtual Whiteboard

Remote Device Management

4K/30FPS

Intuitive Remote Control

## Key Features and Benefits

### Unlimited Casting, Higher Productivity

Perfectly compatible with Windows, Mac, iOS, Android and other operating systems, it allows you to make the wireless presentation experience easy and convenient. Besides, Yealink RoomCast can display clearer content to participants as it supports up to 4K/30FPS video codec.

### Multi-Party Collaboration, Creativity Simulating

Supporting casting 4 screens to a TV, Yealink RoomCast brings richer meeting content, saving you from switching screens. Moreover, it can provide the interactive collaboration features, such as virtual whiteboard, the annotation, or the intuitive remote control, which can integrate participant opinions, promote interaction and collaboration between participants, improve efficiency, and bring creativity for meetings, discussions, or brainstorming.

### Safe, Reliable, and IT-Friendly

Its compact design and PoE power supply allow you to place Yealink RoomCast on the TV or the desktop, hiding all cables and presenting a clean meeting room. At the same time, you can manage and diagnose Yealink RoomCast remotely on Yealink Device Management Platform or Yealink Workspace Management Platform.
